

INTEGRATED MANAGEMENT SYSTEM POLICY

The companies within PHOENIX Pharma Serbia (Phoenix pharma LLC, Evropa Lek pharma LLC and Inopharm LLC) are devoted to preserving their leadership position in wholesale trading and the provision of a great number of services in the pharmaceutical supply chain, as well as to being of service in terms of improving the healthcare for citizens. We achieve the aforementioned through continuous monitoring and increasing of process productivity; business innovations and constant improvement of the quality of services; the continuity of business operations and the preservation of the environmental protection system, as well as the health and safety at work.

Our aim is to be:

a reliable partner to all our clients (producers, vendors and customers), to provide good quality logistics support, timely and continuous distribution of a wide range of medicines, medical devices, dietetic products, dietetic supplements and general use items.

harmonized with relevant local and international legislation in the field of wholesale trading, health and safety at work and environmental protection, as well as with the obligations outlined in contracts with partners.

proactive in observing potential risks that could infringe upon the established quality system or the continuity of business operations, result in environmental degradation, and hinder health and safety at work, for the purposes of preventing and/or controlling them. We build preventive approach in environment protection by processes assessing, especially those one which lead to waste generation and have influence to environment emissions.

dedicated to the continuous improvement of the integrated management system and the preservation of the status of first choice for customers achieved through realistically defined aims and the monitoring of their implementation.

focused on the development of individual skills, capacities and motivation of our employees, in order to improve the services for our clients. Through targeted employee trainings in all areas, we do not only encourage individual employees, but, at the same time, rather ensure the successful development of the group as a whole.

All employees of PHOENIX Pharma Serbia recognize their responsibility within management systems and give their contribution to the preservation of the quality of the products, the improvement of the quality of services, the protection of the environment and the health and safety at work.

In Belgrade, April 01st, 2017

Director of PHOENIX Pharma Serbia
